

Flamingo Homecare offers Florida state licensed private-duty Caregiver & Companions as well as many other in-home caregiving services.

Whatever the client needs, we have it and we pride ourselves on being quick to respond and always dependable.

We are growing rapidly and need experienced, private-duty caregivers.

We hire caregivers for part-time day, evening, and overnight employment.

If you are interested in working for a growing, innovative, and locally owned and family operated professional homecare company, that takes care of its caregivers as well as its clients, please contact us.

Locally Owned & Operated

Flamingo Homecare is a locally owned, innovative homecare company established in 2008.

Flamingo Homecare is not a franchise like many of the big home care and home health agencies. This is an important factor. It means Flamingo Homecare can charge the client less and pay the caregiver more, because our administrative costs are much lower than a franchise. It means we have total control over all decisions and can tailor services to best help our clients.

Services

- * Homemakers
- * Companions
- * Caregivers
- * Personal Assistants
- * Family respite
- * Hospital discharge/aftercare assistance
- * Care provided in private residences, senior living communities, assisted living facilities, adult group home, skilled nursing facilities, rehabilitation center, hospice and other locations where a client may be currently living.

Licensed

Flamingo Homecare is licensed by the State of Florida Agency for Health Care Administration in Polk, Hillsborough, and Highlands Counties.

Requirements for Caregivers

Our requirements for caregivers are very high, but then so are our wages. Basically, we are hunting caregivers that have:

- * 3 to 5 years professional private-duty caregiving experience, preferably with an agency rather than being direct hire by the family, or with assisted living or hospice experience.
- * A minimum of some college coursework
- * Level II criminal background check, screening and police/arrest record check
- * Universal Precautions and CPR Certification
- * Totally clean driving record
- * Transportation and auto insurance

Also Helpful

We especially solicit CNA caregivers and certified medical technicians because of their training and knowledge. Certifications in Alzheimer's and Dementia are also very helpful.

Computer Use

Much of our scheduling, reports, and communications are done via email or texting. You must have daily access to email or texting and be able to receive, download, and print attachments.

Pay Scale

Caregivers are 1099 contractors. No taxes are withheld. TPay ranges from \$9.00. to \$12.00 hourly. Per diem 12 hour shifts pay \$108 per shift. Time-and-one half is paid for holidays, which are Easter, Independence Day, Thanksgiving, Christmas Eve, Christmas Day, New Year's Eve after 6 pm, and New Years Day.
